

## **Community Resilience**

Following last year's tragic events in London and other cities, as a result of both terrorism and natural disaster, the government is keen for communities to develop their own plans in order to be prepared for any emergency that may arise.

To that end the Parish Council has been supplied with an information document entitled Preparing for Emergencies: **Guide for Communities**.

If anyone in the Parish of Finmere would like to look into what is entailed in formulating a community plan, the PC would be happy to supply this information and offer advice to any group, going forward.

The PC would also be happy to make this an agenda item at the Annual Parish Meeting in May if requested.

Please contact the Parish Clerk on 01280 850578 or by email at [sharronchalcraft@aol.com](mailto:sharronchalcraft@aol.com) for further information.
